It is asserted that Elwood Cooper, President of the State Board of Horticulture, has netted from 8000 olive trees this season \$50,000. Who will say that there is not money in olives?

TELEGRAMS have been received in London stating that on October 7th Henry M. Stanley was 400 miles from Emin Pasha, and that he was taking half his force on forced marches.

A. A. COHEN, one of the oldest members of the California bar, died suddenly of paralysis in a Central Pacific railroad car while on his way home from Washington last Wednesday.

KAISER WILLIAM has not been on horseback for two years, and probably will never make another mount. His favorite saddle-horse is sixteen years old and is not ridden by anyone else.

JOHN A. DIMMIG's "little foot" is turning out quite serious for him. He has been committed on information and belief for the murder of Benhayan. As the case now stands it is unsafe to express an opinion either for or against the suicide theory.

JOHN C. DAVIS, living near Oakville, Napa county, died on Monday morning from the effects of having a tooth extracted. The hemorrhage following the operation was so great that the flow of blood choked him to death. He was a prominent Odd Fellow and well and favorably known in Napa county.

The longest case of fasting ever reported is that of Mrs. Sarah Copsey, who recently died near Lakport, Lake county. She was sick 72 days, the first seven of which she took a little nourishment, but after that not a particle of food passed her lips, thus fasting 65 days. Dr. Thornton, her attending physician, verifies this fact.

IRA JENFREE, a noted gambler who was known all over the country as "Old January," died at the Gedney house, in New York City, on Monday night, of general debility. At one time he was worth \$500,000 and has won and lost half a dozen fortunes. He died without means and his friends will have to pay his funeral expenses.

DISPATCHES received in London from San Remo Thursday say there has been a discharge of green matter from the Crown Prince's throat which proved to be cancerous. In view of this fact the case is considered much worse, as this kind of soft cancer is the most malignant type and is regarded as incurable. German doctors, reports say, are trying to deny there is any serious development.

SECRETARY WETMORE of the State Viticultural Commission is at present busy preparing a list of the grape-growers and wine-makers of this State. A list was published in 1884, which contained about 3000 names, but as many changes have occurred since that time—a great many grape-growers dying and new ones taking their places—it was thought best to publish a new list. All grape-growers and wine-makers should send their names to the Secretary, in order that they may be placed on the list.

The ubiquitous Pete Olsen has been heard of again: News has just been received from Moscow, Ida., that a man, who is believed to be the veritable Pete has been arrested there. He gave the name of Ole Johnson when arrested. He was working in warehouse at the time of his arrest. In every particular the man answers the description of Olsen. He will be held pending the arrival of a requisition from the Governor of California, or until it is shown conclusively that the man apprehended is not the fugitive murderer.

C. C. TRIPP, the real estate sharp of Santa Rosa, has caused the arrest of E. D. Cannon of the Republic on a charge of criminal libel. The Republic, true to the interests of the community it represents, some weeks ago exposed the nefarious schemes of this man Tripp. The editor might have stood in with Tripp, and been handsomely rewarded, but he preferred the more honorable but thankless task of serving the people. In this case, however, we trust the people of Santa Rosa will not be backward in showing their appreciation of the course Mr. Cannon has pursued in this matter. He has become involved in what may turn out to be a long, tedious and expensive law suit. This has been brought about by his unswerving fidelity to the people of Santa Rosa in a matter of vital importance to them. His only recompense is their appreciation of honorable journalism; and the people of the City of Roses, bearing this in mind, should stand by Mr. Cannon and furnish him that aid and encouragement which his honorable and fearless course in this Tripp claim business entitles him to.

In these days of bribery and corruption it is with pardonable pride that we point to the fact that the County Press of California to-day stands unrivalled for its purity and devotion to the best interests of the whole people. Juries have been bribed and Judges corrupted, but we have yet to hear of an established country paper standing in with rogues and blackmailers. It is the mission of the country newspaper to run all such to the earth that the interests of the public may be protected. As said before, it is a thankless task and the knowledge of doing right is all the reward that can be expected by the much-abused and less-appreciated country editor.

COUNTY OULINGS.

The Santa Rosa cannery has shipped 3,000,000 cans of fruit to San Francisco the past season.

A number of olive orchards will be planted in the vicinity of Petaluma the coming Winter.

Hon. T. L. Thompson of Santa Rosa, accompanied by his family, left for Washington Saturday.

Three of the streets in Los Guilados town have already been graded and curbed, and work has commenced on the construction of an avenue leading to the warm springs.

In a drunken brawl among Indians, near Healdsburg, one day last week, one of the noble red men of the forest was shot through the neck and instantly killed by a brother aborigine.

Jno. S. Van Doren, formerly of Petaluma, has been elected President of the Los Angeles Board of Trade. He has also been elected Secretary of a large company for preserving fruit by the cold storage process. The capital stock of the Company is \$5,000,000.

The sentence of the Bryant and Weldermuth boys, convicted of burglarizing several barns in the vicinity of Santa Rosa, was changed last Saturday by Judge Sewell to two months in the Industrial School at San Francisco. The previous sentence was twenty days in the County Jail. The change was made on account of the extreme youth of the boys.

J. McDonough, conductor on the S. F. & N. P. Railroad, says the Santa Rosa Republic was badly injured at Guernville Monday afternoon. He was assisting in making up his train, and in attempting to jump from the pilot of the engine, his foot caught and was badly crushed. The attending surgeon believes that no serious consequences will result.

The Santa Rosa Republic says: Persons passing along Fourth street Tuesday had their attention called to an elderly man, probably 80 years of age, and wearing a faded blue coat, in a state of disgraceful intoxication. He was a sad spectacle. The decrepitude of age made him stagger even before he imbibed his supply of liquor. He was taken to the City Prison and locked up until he became sober.

The trial of the case of William King et al. vs. the San Francisco and North Pacific Coast Railroad Company, says the Santa Rosa Democrat, is being conducted in Department 2 of the Superior Court. Suit is brought to recover damages to the amount of \$20,000 for injuries sustained by Mrs. King in alighting from one of the defendant's trains last fall. It is claimed that the train did not stop a sufficient length of time to allow the passengers to alight, and Mrs. King, in attempting to step from the platform, fell heavily and sustained serious injuries.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day.

VITICULTURAL.

A Request Disobeyed Does not Constitute a Penal Offense.

The test case relating to the Pure Wine law passed by the last Legislature was decided by the Supreme Court on the 3d. It will be remembered that the case arose out of the fact that Henry Kohler was convicted in the Police Court of a misdemeanor for neither labeling the wine that he sold as "pure California wine," nor using the label as furnished by the State Controller, as provided for in the law. Mr. Kohler sued out a writ of habeas corpus before the Supreme Court, and that body says that he committed no offense or violation of the law, because he was not charged with selling adulterated wine, but only for the mere failure to use the label. His discharge from custody is therefore ordered. Kohler has claimed that the Act was unconstitutional because it embraced more than one subject contrary to that article of the Constitution which says that "every Act shall embrace but one subject, which shall be expressed in its title." The Court, however, takes the opposite view, saying that while the law contains several provisions, they all relate to one subject matter, which is "to prohibit the sophistication and adulteration of wine and to prevent fraud in the manufacture and sale thereof." But the main point in the decision is as to the proper construction of the eighth section of the law. The part referred to reads as follows: It is desired and required that every grower, manufacturer or bottler of California wine when selling * * * any California wine * * * shall plainly stencil * * * or have printed where it will be easily seen, first, "Pure California wine," and secondly his name * * * or he may * * * if he so prefers * * * affix the label which has been provided for in section 7 (the Controller's). It shall be unlawful to affix any such stamp or label as above provided for, to any vessel containing any substance other than pure wine," etc. The fixing of labels on pure wine was not obligatory, and the only permissible construction of that part of the section which makes a violation of any of its provisions a misdemeanor was for a violation of only those provisions which are plainly stated to be unlawful. Consequently, a dealer who sells pure wine, without a label commits no offense under the law.

The Constables Win.

Although the decision of Judge Brown in the Constable cases was informally published, the following are the material points on which the test case was made and the Constables upheld to the entire defeat of the Board of Supervisors. A Constable is entitled to mileage in making an arrest and returning a prisoner before a magistrate, the two being held by the Supreme Court to be separate and distinct acts; and the law on the case in reference to mileage "in going only" is harmonized upon the theory that the officer is "going" till he serves the warrant and returns the prisoner. The fee bills of the Constables have not been changed by the County Government bill, and they are entitled to 40 cents per mile.

A Constable is entitled to mileage for every mile necessarily traveled in pursuing and arresting a prisoner out of his county, and his necessary expenses in pursuing a prisoner out of his county if the arrest is not made. The Constables won every point contested for in the Justice's Court, but an appeal will be taken. The Superior Court of Napa county has held the law in regard to Constables fees, to be the same as it is interpreted by Judge Brown, a fact which attests the correctness of his views.—*Republican*.

Ringed Noises

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

In this age of progress, what a wonderful amount of skill and ingenuity is expended in the construction, improvement and preservation of the costly and intricate machinery used in the manufacture of the various articles so necessary to our comfort. How much more important is it that we watch with rigid care this most wonderful machine, the human body. Adjusting all its parts with nicest care each to the other, that all may perform their allotted duty. There is nothing better calculated to do this thoroughly and efficiently than Fress's Hamburg Tea; a simple vegetable remedy, yet powerful in its ability to build up and restore the wasted energies, to give tone and vigor to all its powers.

The traveling public praise the Occidental Hotel, R. D. Moore proprietor.

The Western Settler's Chosen Specific. With every advance of civilization into the far west, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only sure protection against malaria, and those disorders of the stomach, liver and bowels, to which climate changes, exposure, and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.

NEW TO-DAY.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and Hood's Sarsaparilla is worthy your confidence. It is peculiar in that it strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. Give it a trial. Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

CURES ALL HUMORS,

from a common Eczema, or Eruption, to the worst Scrofula, Salt-rheum, "Fever-sores," Sores of the Throat, Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eruptions of the skin, such as Eczema, Boils, Carbuncles, Sore Throat, Scrofula, Rheumatism, and Swelling, Hip-Joint Disease, White Swelling, Gout, or Gravel, Rickets, and Enlarged Glands. Send ten cents in stamps for a large treatise, with colored plates, on Skin Diseases, or the same amount for a treatise on Scrofula. Address: THE BLOOD IS THE LIFE. Thoroughly cleanse it by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair complexion, and good spirits, with strength, and soundness of constitution, will be established.

CONSUMPTION,

which is Scrofula Disease of the Lungs, is promptly and certainly arrested and cured by this God-given remedy, if taken before the last stages of the disease. From its wonderful power over this terrible disease, which first coming this now celebrated remedy to the public eye, I have thought seriously of calling it his "Consumption Cure," but have decided to name it so limited for a medicine which, from its wonderful combination of tonic, strengthening, alterative, or blood-cleansing, and bilious, peccant, and nutritive properties, is unequalled, not only as a remedy for consumption of the lungs, but for all

CHRONIC DISEASES

OF THE
Liver, Blood, and Lungs.

If you feel dull, dravay, debilitated, have yellow color of skin, or yellow eyes, or pain on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chill, alternating with hot flashes, low spirits, and coated tongue, you are suffering from Indigestion, Dyspepsia, and Ruptured Liver, or "Biliousness." In many cases only part of these symptoms are experienced. At Golden Medical Discovery, has no equal.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, and Consumption, and kindred affections, it is a sovereign remedy. Send ten cents in stamps for Dr. Pierce's book on Consumption. Sold by Druggists.

INDEX - TRIBUNE

ON SLEEPLESSNESS.

A BRIEF MEDICAL LECTURE IN AN ELEVATED CAR.

A Physician Discourses of Insomnia and the Causes, and Gives Some Good Advice-General Popular Notions Shown to be Erroneous.

Two men were in an elevated car on their way down town to business. The man next to the reporter turned to his neighbor with the question:

"Did you sleep last night?"

"I did, about three hours. When I woke up, I felt more tired than when I lay down."

"Yes, it's pretty hard this summer for people who have to stay in the broiling city. But, say, I hear, the folks in the country are not doing much better. My wife's letters are full of musquitoes and sleeplessness."

"Sleeplessness," broke in a man with gold-rimmed spectacles, who looked the physician every inch of him, and around the corners of whose bearded mouth a humorous smile had been flitting during the dialogue. "This talk of sleeplessness proves how seldom people will take a medical man's advice, or even ask for it. It's so simple to induce sleep, for very little trouble, that every man of intelligence can obtain it unless he is a very sick man indeed."

"Well, sir," rejoined the last speaker, "if you will gratify our curiosity that far, tell us your remedy."

"As to musquitoes my advice is: Kill them before you go to bed. Sleep where there is a current of air and have musquitoes netting around the bed, but leave yourself plenty of breathing space. If suffering much from the heat, take a cooling bath before retiring. I find, however, that this talk of sleeplessness comes in nine cases out of ten from persons of an unduly nervous temperament. They digest about and imagine beforehand that they will not obtain sleep instead of composing their minds to properly receive the soothing influence."

SEVERAL POPULAR ERRORS.

"If given at all to sleeplessness do not smoke in the evening, and do not excite yourself. Lie down with the firm resolution to sleep, and sleep will come quite naturally, provided the body requires it. There's the rub. A great many people think there is a cast iron rule as to the number of hours they ought to sleep. That's all wrong. Never try to sleep unless you feel tired and notice that your system wants it. Four hours of sleep, under certain conditions, are more beneficial to a man than the proverbial nine hours. I've had many cases in my practice which have shown me the folly of expecting so many hours of sleep night in and night out."

"It's the same with sleep as with food. The appetite varies, and so does the desire for sleep. Nature knows her business best, and when a man cannot sleep he very often ought not to sleep. A few weeks ago a well known business man came to me and wanted opiates to give him back his usual dose of sleep. I satisfied myself pretty soon that it would be only doing harm to comply with his request. There was nothing troubling his mind, and his health was good. He simply had the notion that he didn't get sleep enough, and had begun to worry about it. I gave him a few simple rules to observe, and he soon had more than the sleep that was good for him without using any poisonous narcotics."

"Judging from my experience, the need of sleep is very different in different persons, even among those of like habit and equally good health. I know a very retired business man, a patient of mine, who requires but six hours of sleep, while another one needs all of eleven hours out of the twenty-four."

"City hall and Brooklyn bridge," shouted the guard, and every body submitted for the door, while the audience murmured: "Which obliged for the lecture, doctor?"—New York Commercial Advertiser.

A Great Ball of Magnetism.

Most well informed people are doubtless aware that the globe on which they live is a great ball of magnetism, but comparatively few have an adequate idea of the influence this property is continually exerting on all sides, that many common but inexplicable phenomena can be traced directly to this source. Statistics go to show that in that matter, steel rails, as many as thirteen will become crystallized and break where they go to make up a railroad track running east and west before one of those on a north and south track is similarly affected. This is entirely due to the magnetism generated by friction, and the fact that the polarity of the magnetic current is in the former instance resistant to the healing rush of the train, whereas in the latter case it is undisturbed.

Another strange effect of this peculiar and occult force is that exerted on the tranches of train cars, a timepiece carried by the conductor running a train twenty miles far hour, however, generate it may be, will, if the speed of the train is increased any of the miles, become useless until regulated. The magnetism generated by the flight of a train may be said to be in proportion to the speed with which it is propelled, and the delicate parts of a watch, numbering all the way from 400 to 1,000 pieces, and peculiarly susceptible to this influence by reason of the hammering and polishing they have received, are not slow to feel the effect.—Hobe Demarest.

A Paraphrase Who Objected.

In one of the big dry goods stores a few days ago I saw a man refuse to take a bundle done up in a way to display the firm's "ad." When asked why he objected, he said: "I pay what they ask for their goods and do not intend to give them any advertising unless they pay me for it. I think it cheeky of a firm to expect a person to do so. You saw that clerk get angry at me because I made him undo the parcel and then wrap it up with the plain side out. Well, he was the first one that has been so and he probably will not be the last. Candidly, do you not think if they wish you to be an advertising medium, that they should either pay you a discount or by money?"—Buff. Express.

Always Get a Check.

Thieves are up to a new trick. A man sends a valuable watch to a jeweler for repairs. A messenger boy goes after the watch, pays the charges and brings the duplicate to the man who sent it, but who is not the owner. "When you have your watch repaired get a check for it."—New York Commercial Advertiser.

HOW DO WE DIG OUR GRAVES?

WE MUST NOT OR WE CANNOT LIVE.

This we all know. But do we all know that we die by eating? It is said we dig our graves with our teeth. How foolish this sounds. Yet it is fearfully true. We are terrified at the approach of the cholera and yellow fever, yet there is a disease constantly at our doors and in our houses far more dangerous and destructive. Most people have in their own stomachs a poison, more slow, but quite as fatal as the germs of those maladies which sweep men into eternity by thousands without warning in the times of great epidemics. But it is a mercy that if we are watchful, we can tell when we are threatened. The following are among the symptoms, yet they do not always necessarily appear in the same order, nor are they always the same in different cases. There is a dull and sleepy feeling; a bad taste in the mouth, especially in the morning; the appetite is changeable, sometimes poor and again it seems as though the patient could not eat enough, and occasionally no appetite at all; dullness and sluggishness of the mind; no ambition to study or work; more or less headache and heaviness in the head; dizziness on rising to the feet or moving suddenly; furred and coated tongue; a sense of a load on the stomach that nothing removes; hot and dry skin at times; yellowing in the eyes; scanty and high-colored urine; sour taste in the mouth, frequently attended by palpitation of the heart; impaired vision, with spots that seem to be swimming in the air before the eyes; a cough, with a greenish-colored expectoration; poor nights' rest; a sticky lime about the teeth and gums; hands and feet cold and clammy; irritable temper and bowels bound up and constipated. This disease has puzzled the physicians and still puzzles them. It is the commonest of ailments and yet the most complicated and mysterious. Sometimes it is treated as consumption, sometimes as liver complaint, and then again as malaria and even heart disease. But its real nature is that of constipation and dyspepsia. It arises in the digestive organs and soon affects all the others through the corrupted and poisoned blood. Often the whole body—including the nervous system—is literally starved, even when there is no emaciation to tell the sad story.

Experience has shown that there is one remedy that can certainly cure this disease in all its stages, namely, Shaker Extract of Roots or Mother Seigel's Curative Syrup. It never fails but, nevertheless, no time should be lost in trying other so-called remedies, for they will do no good. Get this great vegetable preparation, (discovered by a venerable nurse whose name is a household word in Germany) and be sure to get the genuine article.

GIVEN UP BY SEVEN DOCTORS.

Shaker Extract of Roots or Seigel's Syrup has raised me to good health after seven doctors had given me up to die with consumption.—So writes R. F. Grace, Kirkmanville, Todd Co., Ky.

HE HAD BEEN IT JUST IN TIME.

"I had been just in time up to die with dyspepsia when I first saw the advertisement of Shaker Extract of Roots or Seigel's Syrup. After using four bottles I was able to attend to my business as well as ever. I know of several cases of cholera and fever that have been cured by it." So writes Mr. Thos. Pullum, of Taylor, Geneva Co., Ala.

WORKS TEN DOLLARS A BOTTLE.

Mr. Thomas F. Evans, of the firm of Evans & Bro., Merchants, Horn-down, Accomack Co., Va., writes that he had been sick with digestive disorders for many years and had tried many physicians and medicines without benefit. He began to use Shaker Extract of Roots or Seigel's Syrup about the 1st of Jan. 1887, and was so much better in three weeks that he considered himself practically a well man. He adds: "I have at this time one bottle on hand, and if I could not take any more I would not take a ten dollar bill for it."
